## Experience

### Student (Diploma in IT)

Coder Academy

Oct 2019 - Present (8 months +)

Ruby

Ruby on Rails

HTML/CSS

Bootstrap

Git/GitHub

CS fundamentals including Discrete Maths

Javascript

Currently studying the MERN Stack.

Project 1: Ruby Terminal App

- Built a terminal app called 'Super Eats', allowing users to order food from different cuisines -all from the comfort of their home, office, or anywhere!

FEATURES

- 'Super Eats' allows users to log in with their username and password and create their profile on the app.
- 'Cart' at the end shows the customer's total order.
- Multi-select option using Ruby Gem(TTY Prompt), minimising user input error.

Project 2: Portfolio using HTML/CSS

- Built my portfolio using HTML, CSS and Bootstrap skills.

FEATURES:

- NavBar, Contact me Form, Blog page, Socials links.

Project 3: Ruby on Rails App

- Built a Rails App called 'Take-Two' - a 2 sided marketplace app for buying and selling pre-loved clothes. This app was built with an end goal of enabling people to reduce perfectly good clothes from ending up in landfill, caring for the environment by reusing, reducing and recycling clothing items.

FEATURES:

- CRUD ability for users
- Authentication: Sign-up and login feature using Devise.
- Authorisation: All users can view listings but only authorised users are allowed to edit and delete listings
- All static Images were uploaded to Amazon S3
- Shopping Cart

### Early Childhood Educator

Kids in The Sky Pty Ltd, Sydney

Sep 2016 - Sep 2017 (1 year 1 month)

## **Associate Research Scientist**

**Eurofins Advinus**

Aug 2011 - Dec 2014 (3 years 5 months)
